About Georgina ..

I'm a Certified Professional Organizer, Organizer Coach and Productivity Consultant but I've always loved photos. As a young girl, I would often peruse our family's small photo album collection. When I became an adult, got married and started my family, I created my own family photo albums.

I discovered the world of scrapbooking when my son was in his teens. This hobby enhanced my photo collection and helped me create memorable photo albums that we all love and cherish today.

Then one day I discovered I could marry my two loves: Photos and Organizing! I have helped many people organize their printed and digital photo collections. And I know I can help you too. Let's get started. Give me a call.

The best thing about a picture is that it never changes, even when the people in it do.
